What is the sales of top 5 products by category ?

Spotter 11:41 AM 15/10/2024

Total sales by item type, product

top 5 by item type | product | sort by sum sales

item type	product	Total sales ↑
Vests	Baby striped vest	136.18K
Vests	Pack vest	1.01M
Vests	Down sweater vest	1.43M
Vests	Lost trails vest	3.03M
Vests	Rivermaster vest	5.39M

i wanted the top 5 products in each category

Spotter 11:41 AM 15/10/2024
Here are the changes I have made :

- Added: **`top 5 sort by sum sales` , `for each item type`**
- Removed: **`top 5 by item type sort by sum sales`**

Total sales by product and item type

top 5 | for each item type | product | sort by sum sales

Show data for last week

Spotter 11:41 AM 15/10/2024
Here are the changes I have made :

- Added: **`date = last week`**

Total sales by product and item type

top 5 | for each item type | product | date = last week | sort by sum sales

What was the percentage contribute of bags and dresses in the total sales last week ?

Spotter
Here are the changes I have made :

- Added: **`% contribution (item type = bags)` , `% contribution (item type = dresses)`**
- Removed: **`for each item type` , `product` , `sort by sum sales` , `top 5 sort by sum sales` , `for each item type`**

% contribution (item type = bags), % contribution (item type = dresses)

% contribution (item type = bags) | % contribution (item type = dresses) | date = last week Edit

% contribution (item type = bags)	% contribution (item type = dresses)
7.52	8.41
